NEAR TRAGEDY TO FORMER HAMLINITE 'BELIEVE IT OR NOT'

(From Mathis, Texas, NEWS)

Last week, L. S. Sparks, Mathis' king of the Five and Ten stores, who grew up on the hurricane deck of a bucking bronc; had horned toads and Gila monsters for bed-fellows, and before he came to Mathis never walked a quarter of a mile at any one time in his life, experienced a harrowing and soul shattering mishap according to the best information obtainable.

From information received secretly, it being reported that Sparks has threatened to meet out dire punishment to any one telling of the near tragedy which occurred on a fishing trip to the Lake last Thursday.

For the last week Sparks has had an old friend from his former home in West Texas visiting him. Naturally this friend coming from a country where a pond of water over six feet long would attract county-wide interest was anxious to visit Mathis' famous lake and try out his luck as a fisherman.

Deciding to make a trip to the lake Thursday, so it is reported, Sparks and his friend, S. D. McMahon, arose early and when Sparks came out of his bed room, he was garbed a la movie cowboy. A red bandana handkerchief tied around his neck, high heeled boots on his feet with a pair of espuelas, with rowels over an inch in length, and his spindling legs covered with a pair of chaparreras with the pelo of the chivos shining and glistening like a well used keeno ball.

Mr. McMahon remonstrated with Sparks telling him that was no garb for a fisherman to wear.

Sparks vehemently declared, so a bystander says, that he was a bad man from the forks of Bitter creek, had never been curried below the knees and he was fed to the gills on this effete Mathis civilization, and wanted some "he-man" stuff and that he was going fishing garbed like a man ought to go.

McMahon with a sigh led the way to the car and soon they were at the lakeside when he again suggested to Sparks that he had better at least take off his spurs as he surely would not need them in the boat.

Resentfully Sparks spurned the proffered advice and stepped into the boat, spurs, boots, leggings and all.

In a short time a fish was hooked so it is stated, a big one, probably a forty pounder. Sparks became very much excited, and commenced to hoop and yell like a cowboy trying to circle a stampede when in some manner one of Sparks' spurs became entangled with the fish line and overboard went Sparks.

By the time the fish had pulled the cowboy fisherman under water three or four times he had lost his cock-sureness and was quite meek and amenable to reason. When McMahon told him to hold onto the boat so he could reach the line and cut it he did as he was told. McMahon then reaching over him cut the line releasing Sparks from the largest fish probably he ever did, or ever will catch.

Sparks meekly asked that they wait until after dark before returning to Mathis.

Afterwards when questioned about his fishing experience he declared there was nothing to tell.

But be that as it may, Mrs. Sparks, estimable and long suffering woman as she is, thought advisable to take her husband to San Antonio for a rest of several days.

NOTE: The friends of L. S. in Hamlin are glad he finally listened to a man of reason, like Doke McMahon.

Mr. and Mrs. B. B. Campbell and little son Ben David left Monday for Longview where Mr. Campbell resumes his former position in the maintenance department of the T. & P. Railroad. Mr. Campbell has been cashier for the West Texas Utilities Co. for the past year. They have a nice home in Hamlin on Central Avenue that some day they will return to.

Another Hamlin Boy—

Instead of "six" boys from Hamlin who are "missing" in the Philippine army, we have learned of another, MARVIN DOUGLAS MORRIS, son of Burl D. Morris, who lives in South Hamlin. This makes seven and there may be others.

ROY EDWIN TIMS, son of Mrs. Ina Tims of Hamlin, is one of many Texas boys who were sent from Camp Bowie last fall to some place called "Plum", was last heard from in a place called Malang Java, and it would appear that no one knows now what has happened to this Field Artillery. Like all other "missing", he may be captured, he may have suffered death and it is possible that this bunch of Americans are with a band of Dutch in the mountains of Java and will some day come out and join a victorious army. Let's hope so.

Roy Tims is one of Hamlin's best known and honored boys. All of us know he is a fighter, and knows quite well he is a fighter. He knows quite it is our guess that he scratched a lot of Japs before he was captured or whatever happened to him.

Speech Recital to Be Given Monday Night

Mrs. Heflin Miller will present pupils from her pre-school and elementary classes in a speech recital Monday night, June 8th, at the High school auditorium at 8:45. On Friday night, June 12, these pupils will be joined by the High school class for another recital at the High school auditorium at 8:45. The public is invited.

Vacation Bible School First Baptist Church

The pastor, H. E. East, will act as principal of the Vacation Bible School to open Monday morning at 9:00 o'clock. He will be assisted by the following departmental leaders, together with a large number of other workers: Mrs. Tate May, Intermediate Supt.; Miss Pattie Wiman of Roscoe, Junior Supt.; Mrs. D. W. Stell, Primary Supt.; Mrs. H. E. East, Beginner Supt.

Children and young people from four to sixteen are urged to attend. The Methodist church is sponsoring a school at the same time, thus placing more emphasis on this type work in our community. We hope the majority of our boys and girls will accept this opportunity granted them by these two churches. Attend regularly one school or the other.

VACATION CHURCH SCHOOL

The Vacation Church School of the Methodist church will begin next Monday morning at 8:45 and continue through Friday the 19th. Primary, junior and intermediate children will be enrolled. Mrs. H. A. Johnston with her workers will have charge of the primary children. Mrs. Ray Jones with the workers will have charge of the junior children. Mrs. John D. Ferguson with her group of workers will direct the work of the intermediates. The school session will be for two hours each morning. The pastor will be in charge of the school.

We invite all children not in some other vacation school to attend. We are anxious to reach as many children of the community as possible for these two weeks of helpful study, meditation and play.

Fire Destroys Home of L. R. Faulkenberry

Monday morning of last week about 3:00 o'clock the farm home of Mr. and Mrs. L. R. Faulkenberry, located six miles southwest of Hamlin, was destroyed by fire of undetermined origin. When the family awakened the fire which had apparently caught in the roof of the kitchen, was beyond control. Mr. and Mrs. Faulkenberry lost all of their household furnishings with no insurance coverage. The house which was owned by Mrs. J. F. Taylor, was not insured.

900 Negroes To Be Enlisted In Marines

The first battalion of Negroes, numbering about 900, will be enlisted in the U. S. Marine Corps Reserve during the months of June and July, it was announced at U. S. Marine Corps Headquarters.

Those volunteers will form a composite battalion which is a unit including all combat arms of the ground forces composed of artillery, anti aircraft, machine guns, tank and infantry, and including also billets for recruits who are skilled in various trades and occupations such as radio operators, electricians, accountants, carpenters, draftsmen, band musicians, riggers and blacksmiths.

Until a training center is ready for their reception, recruits will be temporarily placed in an inactive duty status. The training center will be in the vicinity of New River, N. Carolina, where a large Marine Corps post is now located. As required Negro recruits will be ordered directly from their homes to duty in this training area.

Negroes may apply for enlistment at their nearest Marine Corps recruiting office.

ARMY ANNOUNCEMENT

Private Carl Forrest Greenway, son of Mr. James Carl Greenway, P. O. Box 605, Hamlin, Texas, has been admitted as an Officer Candidate to the Air Forces Officer Candidate School at Miami Beach, Florida. After successfully completing a twelve weeks intensive course of instruction, Officer Candidate Greenway will be commissioned a 2nd Lieutenant in the Army of the United States (Air Forces). At this school, the first of its kind, the officer candidate studies more than 35 specialized courses in administrative, personnel and supply duties. Upon graduation, officers will be assigned to duty in one of these departments in the Air Forces, thus relieving trained pilots from such duties and allowing them to devote their full time to flying. The immediate availability of housing and training facilities, plus excellent climatic conditions, prompted Army officials to select Miami Beach as the ideal location for the school.

The War Cuts Out State Fair At Dallas

Dallas, Texas, June 3—(There will be no 1942 State Fair of Texas.

Decision to forego the annual exposition, known as "The World's largest and most beautiful State Fair," was reached by the Board of Directors after Harry L. Seay, President of the institution, made a report on his survey of conditions brought about by the national emergency.

Lack of transportation for both exhibits and patrons decided the issue. Tire shortage, possible gasoline rationing and a scarcity of shipping facilities influenced the decision. Many of the leading fairs of both the United States and Canada have been called off for the duration.

Grounds and buildings of the \$15,000,000 plant of the State Fair of Texas have been tendered the United States Government for whatever use it may see fit to make of them, Mr. Seay announced.

Appreciation

We wish to express sincere appreciation to our friends and neighbors for their kindness and help shown to us in the loss of our home which was destroyed by fire.

Grasshoppers Threaten Jones Co.

Complaints and statements relative to the grasshopper infestation have been coming to the County Agent's office from all parts of the county. A recent survey made along the river revealed a heavy infestation. In fields along the pastures in some sections of the county, grasshoppers have destroyed large strips of cotton and feed.

Charles V. Griffin, County Agent, through a telephone conversation with the Federal grasshopper control, has arranged a survey for the entire county. In the event the grasshopper infestation is general over the county, Federal aid in the form of poison, wheat bran and other ingredients will be furnished.

For the benefit of anyone wanting to put out poison bran now, the following solution is recommended:

100 lbs of bran
100 lbs of cotton seed hulls
1-2 gallon of Sodium Arsenate

Mix the above ingredients thoroughly with water until it is convenient to put out.

Fleahoppers in Cotton

All farmers are urged to be on the lookout constantly for fleahoppers in cotton. These insects are extremely hard to see. A survey will be made in the county from time to time and please keep in mind that if fleahoppers are in any part of the county, they are usually in all the county. All farmers will be notified of the results of each survey.

Droopy Baby Chicks

Several complaints are coming to the county agent's office about droopy baby chicks that stand around with their wings dropped and appear lifeless. This is usually caused from an overcrowded house, lack of vitamin A, or worms. It is suggested that you correct your overcrowded house, and if green feed is not available to the chicks, add 10 per cent alfalfa leaf meal to your chick starter or growing mash. This will correct your vitamin A deficiency. For detecting worms in small chicks, cut them open and if worms are found in the intestines, feed a good worm powder in your growing mash.

Registered Boar Pigs

Several 4-H club boys have some registered medium bone Poland China boar pigs to sell. These are from excellent stock and are worth the money. For location and names of boys having pigs to sell, write or see the county agent.

Quart Milk Per Day Is Urged by Mill Manager

"Drink a quart a day-of-milk — at all times to maintain health and morale as well as to help the dairy industry which is such an important business for local farmers," says J. E. Moody, manager of the local cotton oil mill. "June is being observed as Dairy Month throughout the nation," he adds, "and all of us certainly should drink more milk and use more dairy products during this month."

During the present emergency, especially, use of adequate amounts of milk and dairy products is being urged in the nutritional program to maintain and improve the nation's health. A minimum of one pint of milk for every adult and a quart for children is advocated, but adults who drink a quart daily will be that much better off, the mill manager points out.

"Our own cotton oil industry, so closely associated with all farm activities through the services that we render to cotton producers and livestock feeders, is rather proud of the part that we are taking in aiding both the increased consumption and increased production of dairy products, especially in cotton-growing States," he adds.

"This spring, our Educational Service has prepared a special folder, 'More Milk for Americans and Victory,' of which some 100,000 copies have been distributed by cotton oil mills, County Agents and others. By making these available to every dairy cattle owner who wants them, we are helping to distribute information on efficient feeding based upon recommendations of Experiment Stations and upon practical experience."

Annual availability of cottonseed meal and hulls, both efficient feeds in rations for dairy cattle, also is an important factor in increasing production of milk from grains and roughages produced on farms. Supplying protein that is essential for efficient milk production and is lacking in farm grains and hays, cottonseed meal enables the dairy producer to get more value from his rations and cows. Authorities have estimated that production of the average cow can be increased as much as 20 per cent by using adequate amounts of protein in rations. "Consumption is just as important

Pictures of Soldiers Display Progressing

The committee from the Lions club gathering pictures of soldiers in the services from Hamlin and surrounding communities is meeting with gratifying success. Many pictures are in the hands of the committee and more are coming in every day.

The window display of the boys in the armed forces will be at the Red Cross room, south of Inzer Pharmacy. If you have a boy in the service, get in touch with Travis Dean, or you may get information concerning this display at the Red Cross room.

Six Weeks Music School Has Started

The Tonette Band for students in the first, second, third and fourth grades is under way at the High school band room. Horns were issued Thursday and new pupils are coming in daily.

All parents who want to take advantage of this course for their children should arrange with Mr. Jenkins as soon as possible.

New pupils should start before the class has progressed too far.

The horns cost \$1.25 and the tuition is only \$4.75 for the six weeks. The class meets every day at 10 A. M. and provisions are being made for those who want to attend the vacation Bible Schools at the local churches.

Mr. Jenkins would like to talk to those parents who are interested so he can explain to them what advantages the child gets from the course.

Mr. and Mrs. Cas B. Rowland are vacationing down at Marlin this week, taking a much needed rest.

Mrs. J. C. McCarley and granddaughters, Mary and Robbie, returned to Mathis Wednesday after a visit with Mrs. McCarley's sister, Mrs. S. D. McMahon and husband.

as production if our growing dairy industry is to be of maximum value to our nation," the oil mill manager concluded, "and the observance of National Dairy Month during June gives us a real opportunity to increase our consumption of these nutritious foods."

Dairy Products Build Strong Americans

Drink more milk and eat more dairy products, every day, to build strength and vigor—that's a good rule at any time. Today, when every American needs to do an "all-out" job, IT'S ESSENTIAL.

National Dairy Month, during June, gives you a special opportunity to use more dairy products—helping your own health and helping the important dairy industry of this community.

COTTONSEED PRODUCTS BUILD STRONG RATIONS

For Dairy Cattle—and other classes of livestock—Cottonseed Meal and Hulls supply essential nutrients that make rations "stronger" and more efficient.

Dairy and Livestock Producers get the maximum value from their grains and roughages when they use them in balanced rations with home-grown Cottonseed Meal and Hulls.

How Do You Feel?

If anything catches the eye of a reader it is pictures. Cast your eye on the average daily paper . . . and maybe not on the same page you will see two pictures that prompt two divergent feelings in your mind. BOTH of the pictures bear the likeness of stalwart, fine physique young men.

One picture is that of "players" just players, sports, just sports. BUT maybe these baseball players are well meaning, patriotic, and not trying to shirk their duty as American citizens, maybe. The point is, what effect does that picture of these big double-jointed young men have on the minds of Americans who have sons, brothers, sweethearts in our army?

Some weeks ago this paper made a guess. We must have missed it. We predicted that this year, 1942—this war year, base ball, and most all sports would not appeal to American crowds. We may be correct, as we do not know how gate receipts run. And maybe those boys are just playing for various organizations free.

Most mothers wonder just why big strong men are playing while their own sons are in the middle of a hall of fighting so that base ball can be enjoyed. To say the least of it, it does not look good to anybody who is offering everything on the altar of freedom.

Now let's look at the picture on the other page. Look how your eyes linger, feel how your heart goes out to those boys in line, those sailors, those gunners, and we cheer them for their "runs" for their strikes at enemy bases, for the number of enemy bagged. Yes, buddy, there IS a lot of difference in how we feel.

We love base ball, we admire good sport, but hecked if we can muster a yell these days just because a fellow flaps a ball over the fence and trot around a dusty field. On the other hand, we can whoop it up, yell and even cry for joy when we think of the men on the burning sands of North Africa, or in the jungles of Java, Philippines, or on the ices of the north, when they try, even, to bring in a

score for our America and for others who fight with us.

—T & T—

Now They Know—

The following lines are expressed in an attitude of human compassion for widespread suffering. Yet and yet . . . this old world is so full of sorrow, full of misery, all uncalled for, that we know before it stops, literally hundreds of thousands of people—innocent people, will necessarily undergo many hellish nights of bomb and fire.

You ask "Necessarily?" Yes, necessarily, for indeed that is what we mean when we say "Now they know".

Now the Germans know what it is to be blown out of their beds, from their homes, into a hell of fire in the mid-hours of night. They gave this to the English and "now they know" how the English and the Americans and others can return it, can dish it out in the good old fashioned way, with plenty of interest.

Now the Germans know what misery, and unspeakable torture air war means to great cities. It is not a pleasure for even any man of hate to glory over what Cologne, Germany, what Essen, Germany, cities of 750,000 and 650,000 populations, have suffered. The thought of it is repulsive, BUT every person of common reason understands that nothing but "Total War" will ever stop the German murderers who now strangle most of Europe as well as the bulk of even the German population.

Now Germany knows what democratic nations can do when they have gathered equipment to resist their inhuman conduct towards their neighbors . . . Now they know how it felt in Warsaw, in Rotterdam, in London, in Coventry, Liverpool, in Manchester and a hundred other English cities where their bombs dropped in the dead of night. Now they know how it feels. This is WAR and no gushy tears should flow from any free man's heart. Again we say "Total War", and again we say total war works two ways . . . It takes a determined, self-willed, free united people to pull together 100 per cent and then keep hitting the enemy fully 100 per cent till everything they have to fight with is destroyed or surrendered.

The German people can stop the destruction of their cities in a day if they wish. The United Nations will continue to pound their cities one by one, two, three, maybe six cities every week, till every one is ground into blasted dust. It is total war for them because they asked for it.

The chief thing that gives Americans satisfaction in the destruction of Cologne and Essen, is that it was done by Englishmen. It must have been satisfying, to the English boy to see the red flames mounting over

Germany like they had observed over many English cities. Do not blame them for their glee. Glee came to the Poles, the Dutch, the Belgians and Norwegians and the French as they joined to let the Germans know how it feels.

England is not whipped yet, and her big son, America, is getting in there with all it takes to drive the Hitlerites back into their own suffering land.

The world will not forget how the Germans herded out thousands of Poles and Jews into fields to dig their own graves and then be shot. The way the Germans have treated literally tens of thousands of people in eastern Europe, in Latvia, Lithuania, Russia, Slovakia, etc., it beyond words to express and beyond belief. NOW shall anyone shed a tear of pity for what the "Champions of Freedom" are dishing out to the great and beautiful city of Germany? Hold your sympathy—the might of America is just beginning to strike. Ye "haven't" seen nothing yet!"

—T & T—

Too Many Fires—

The Hamlin Herald and all the weekly papers coming to our exchange desk report farm homes being lost by fire.

It would seem it is time for united action in all rural communities to prevent fires. Prevention is the only way to stop a rural fire. There is something wrong. There are too many homes burned on farms.

Mrs. Jack Ward and little daughter, Wanda of San Antonio, came up Wednesday to visit her parents, Mr. and Mrs. W. H. Harrison.

Mr. and Mrs. E. J. Joiner of Beaumont, Calif., are visiting his parents, Mr. and Mrs. A. S. Joiner.

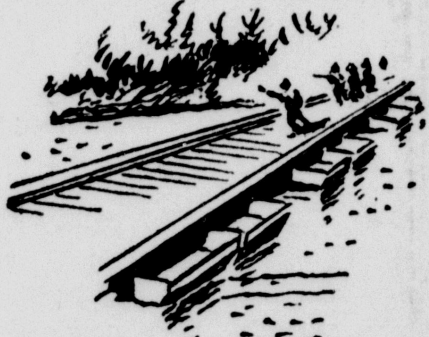

A. S. Joiner, who has been on the sick list, is improving.

Mr. and Mrs. L. B. Pribble are spending their vacation in Marlin, Texas. Mrs. Pribble has been with her son Iris in Hobbs, New Mexico, for some time.

What You Buy With WAR BONDS

Our army spells and pronounces it ponton, not "pontoon", as you do. Ponton bridges cost all the way from \$15,000 to \$700,000. The smaller bridge using individual metal pontons is pictured here. The largest ponton bridge is 1,080 feet long and is made of rubber instead of aluminum.

One small bridge has a weight capacity of 25 tons, using about 2,000 individual metal pontons. The smallest is used only to take troops over smaller streams. But whether our army uses the smaller or largest ponton, our engineers need plenty of them. If you and every American invests at least 10 per cent of income in War Bonds every pay day we can supply our fighting forces with these essentials to a victorious war.

ME: Hello . . . that you, Helen? Listen, I forgot to tell you to send the car over for greasing and an oil change.

SHE: Oh, all right Bob, but what about the tires and the battery and all the other things it might need?

ME: Right . . . everything should be attended to. Gosh! . . . can't you take some responsibility for the car?

SHE: All right, smarty . . . I have taken the responsibility. I joined the Once-a-Week Club today.

ME: Great Caesar's ghost! Another club! Didn't we just agree last night to cut out unnecessary expenses?

SHE: That's exactly what we are doing. This is a club without any dues, fees or anything.

ME: I'm listening . . . proceed with caution!

SHE: Well, you know that nice Conoco station over on Myrtle Street? I went in there this morning and Mr. Blevins, the Mileage Merchant, told me he would go over our car every Thursday morning; check the tires, the battery, water . . . in fact, everything . . . and if he saw anything needed, he would write it down for me.

ME: Atta girl! This war will make a business woman out of you yet!

SHE: Oh, yeah? Well, I may be a business woman, my dear, but I'm going to get a permanent this afternoon just to prove I'm still a female . . . and the price will be charged up to the extra life of our car and the savings we're going to have because of that Conoco Once-a-Week Club.

RED CROSS HOME SERVICE

Credit Miss Hybernia Grace

Translating Red Cross dollars into "home service", connecting link for men in armed forces with their families and communities, is the volunteer work of Miss Hybernia Grace, Anson history teacher.

Advising with A. W. O. L's, and emergency furloughs, emergency telegrams, pensions, compensations, verifying illnesses, secular of discharges, the gamut of human needs of a soldier and his family, all are but a part of Miss Grace's work as Jones County Red Cross home service chairman. She has had special training at St. Louis headquarters, with associated charities there, with a Missouri school concerned with social-economic problems, and in the field, but she still finds her home service job here sometimes calls for extra abilities, as linguist and detective.

Once dealing with a Mexican soldier who spoke very little English, Miss Grace had to translate required ages by having the man write years of births and figuring from there. Once she solved a soldier's unknown serial number when civilian clothes he had mailed from the army post revealed the military identification by laundry tag.

Miss Grace has given assistance with five discharges in the present war thus far. One Jones county boy, formerly at Brownwood, receives total disability compensation; another receives partial disability compensation for loss of an eye while he served at Fort Bliss; a third of the five also receives partial disability compensation.

Much home service work may be a matter of simple information; some demands a skillful type of case work; family problems, social histories, reports on home conditions which may boost a soldier's morale, reports from hospitals before soldier patients are able to write home are among services Miss Grace re-

lays. She handles many cases to locate soldiers or civilians in war areas, but one case came in reverse. A 19 year old soldier in Louisiana asked her to help locate his father, not heard from in a year, and reported to be in Jones County.

A negro soldier's pay was delayed; he thought he would lose the house-restaurant he was buying by-the-month from a lumber company. The Red Cross field director at the camp had Miss Grace investigate and eventually delegated her to convey payments past due to the lumber company. Money for this had been advanced to the negro by the Red Cross field director.

A Jones County private in Java had not been heard from in months. His family contacted Miss Grace and asked for a message to be delivered to him through Red Cross channels. It was found the soldier had been moved to a second foreign station, and that mail had missed him in transit to the new post which could not be revealed by the military. The family's message was to be delivered and a report on the soldier's welfare sent back through initiation of the Jones County chapter.

A Sheppard Field cadet came to his Jones county home on a three-day pass, because of critical illness of his mother, with assurance that his pass would be extended by a furlough. The furlough did not come through as expected; time limit on the pass was about up, and the cadet's mother was still at the point of death, when Red Cross home Cross Field Director at Sheppard Field contacted the boy's commanding officer for Miss Grace; the furlough had been approved and was in the mail. Miss Grace delivered the message to the cadet's home out in the country. The boy's mother died

within the hour.

An Anson dorkie named her baby girl "Ina Hybernia" in appreciation to the Jones county worker for the American Red Cross which aided her when her soldier husband could not. The negro eventually got a discharge and returned to care for his family.

Annual home service report thru the year ending March 31, 1942, shows 247 calls made, 73 home visits, 65 office visits, 109 reference visits. Miss Grace now has a home service committee assisting in this work: Stamford, Bryon E. Lewis, chapter vice-chairman, and Mrs. W. J. Bryant; in Hamlin, Mrs. C. F. Butcher, chapter vice-chairman, and Mrs. M. Y. Wilson; in Hawley, Mrs. Fannie Meeker, chapter vice-chairman, and M. P. Gentry; in Lueders, J. C. Eubanks, chapter vice-chairman, and Mrs. Homer Hutto.

POT SHOTS FROM M'CAULLEY

BY GEO. DARDEN

At this writing, Harvey Hennington is seriously ill in the Stamford hospital after undergoing major surgery. Last Thursday Mr. Hennington became seriously ill and was rushed to the hospital.

Mr. and Mrs. Wesley Akins and son are spending the summer in the home of his parents, Mr. and Mrs. M. L. Akins.

Corine Akins, who has been attending Hardin-Simmons this year, has accepted a position in the office of the First Baptist church at Sweetwater.

We are informed that Billie Pickerton has been commissioned a 2nd Lieut. in the air corps.

This scribe has just received a long letter from our friend B. B. (Doc) Perryman who is in the Navy and stationed at Pearl Harbor. T. H. Doc tells us that he has received two editions of the Herald thus far and he sends greetings to all his friends back home. Doc is thoroughly enjoying navy life and he says for all of us broke down race horses back home to keep the home fires burning and the boys in the navy will take care of the slant-eyed Japs. And knowing Doc as we do, we know he means just that.

Two gyp mill employees, Willis Wright and Bill Gardner suffered broken ribs and other injuries when caught in an avalanche of falling wall board at the mill on Friday of last week. Both boys are in the hospital at Stamford and are said to be rapidly improving.

Mr. and Mrs. L. C. Houghton and son of Plasterco were Sunday visitors in the home of parents, Mr. and Mrs. Sharmon Houghton last Sunday.

Mrs. Gordon May and son of California have been visitors in the home of Mr. and Mrs. George Maberry. Mrs. May is a niece of Mrs. Maberry.

Mr. and Mrs. Adolphus Skaggs have moved to Graham where Mr. Skaggs is employed.

Mr. and Mrs. D. P. Bullard and daughter of Wichita Falls and Corp. Rufus Shields of Sheppard Field were Sunday guests of the Luther Rector family and Mrs. Keller. Mrs. Bullard is the granddaughter of Pa Martin.

Visiting Mr. and Mrs. Melvin Henderson over the week end were Mrs. S. E. Brown and Mrs. Robert Fike and baby of Wellington, Texas. Mrs. Brown is a grandmother of Mrs. Henderson and Mrs. Fike is a cousin.

District court is in session at Roby and the high light in the court room this week will be the murder trial of the paper sack bandit who shot and killed Wade Willis, Taylor county deputy sheriff, in a jail break attempt in Abilene a few months ago.

The last minute rush is on and the candidates from the forks of the creeks are filing for this and that office, but to cap it all, Old Hal Collins the medicine man, has announced for Governor of the State of Texas.

Frankly neighbor, the State of Texas has had enough comedy, showmanship, mountain music and the like. We are in a war up to our necks and we don't need crazy crystals added to state politics. The old folks have had enough of this hum-bug about pensions and heretofore candidates that came out with promises of thirty dollars per month or more for the old folks were swept into office and after they got the job they didn't know what to do with it except to draw their salary.

Hal (crazy crystal) Collins will likely use the same tactics as his old pal, Pass the biscuits Pappy O'Daniel and he will be deeply grieved if the people fail to fall for such a line again.

The war has brought about a different situation in county, state and national politics and the people are not looking for showmanship, but sound, qualified and capable leaders who do not have to depend on banjos, laxatives and the like to impress the people as to their qualifications.

We have a good governor and a man who is sound and a man who will serve this state with honor.

We predicted in this column almost two years ago that Hal had his eye on the governor's chair and even though he may have the blessings of our junior senator, that doesn't qualify him for governor of this great state.

We are indeed grateful for the privilege of being born and reared in the Lone Star State and we, like you, and you, have the same right as to our political convictions, but please folks, let's not make Texas politics a laughing matter with a medicine show man as governor of our beloved state.
